

## Education Material: Icons

D.1.2.4

These circular economy icons, developed as part of the research project CEFoodCycle serve as versatile educational tools for workshops and training sessions in the field of **circular economy**, particularly in the food system. They can be used to create cards or visual aids representing **specific topics** (e.g., legal frameworks, technological barriers) or **stakeholders** (e.g., farmers, manufacturing companies). These materials are ideal for interactive activities such as role-playing exercises, discussions on implementation challenges, and brainstorming solutions, fostering a deeper understanding of the complexities and opportunities within circular economy systems.

**REUSE**

**RECYCLE**

**REDUCE**

**INNOVATION**
